

# POWER CORE INDUSTRIES™

## STEP LAP CORE

DELIVERING YOUR DEMANDS

### Step Lap Core

Step lap construction has now established as an industry standard where high efficiency transformers using stacked cores are required. It allows manufacturers to produce stacked core transformers with the lowest possible NoLoadLoss and reducing core weight, assembly time and simplifies core handling.

**StepLap:** Empowers: Manufacturers: to be: Competitive.

All stack core designs can be converted to **StepLap**.
